

# First Due – CONFIRE Training Advisory

## IMPORTANT INFORMATION

Please distribute to all users of First Due and Tablet Command.

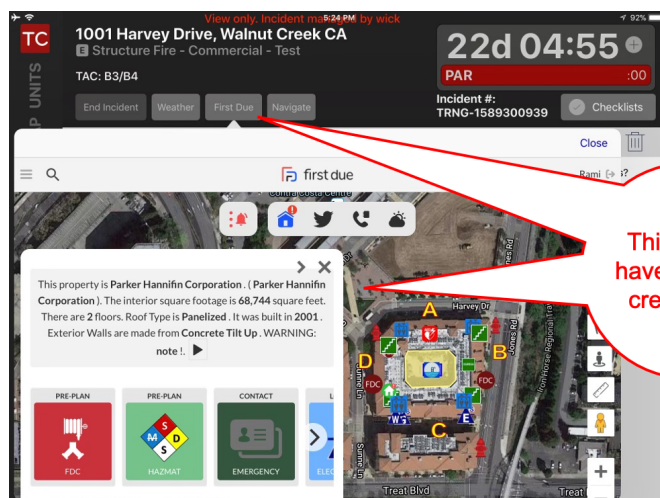

### Understanding the Status of the First Due “Hot Button” in Tablet Command

- Since the First Due and Tablet Command integration will be a phased roll out, not all users will immediately have access to First Due via the embedded “First Due” button in Tablet Command. The button will launch the First Due login page, but not all users will be able to access First Due until their local First Due Administrator issues their login credentials.

**Don't Panic!**  
This is what you will see when you select the First Due “Hot Button” BEFORE you get your login credentials

- Once you have your login credentials AND log in to First Due on your mobile device, you will see the following:

**Good News!**  
This is what you see AFTER you have been provided First Due login credentials and have logged into First Due.
